Michael D. Jones, M.D.F.A.C.O.G.

******IMPORTANT****** **YOU MUST BRING YOUR INSURANCE** **CARDS TO ALL APPOINTMENTS**

Enclosed are several forms for you to **read** and **return** to our office with your first OB appointment. Your initial visit will be with a nurse to go over your history and to do blood work.

- ✓ Please complete and sign the patient registration.
- ✓ Please complete and sign the back of the substance form.
- ✓ For the other consents please read and sign.
- ✓ If you have any questions concerning the lab consents **do not sign, you can discuss with the nurse on you first OB visit.**

You will be seeing your primary provider for the majority of your OB visits, but due to the fact the providers alternate being on call, **we strongly suggest you see the other provider at least once during your pregnancy.** We advise this because your regular provider **may not** be the one on call when you deliver your baby.

You will have a complete pelvic exam and ultrasound, possibly vaginal probe, with your first prenatal visit with the doctor. Your second ultrasound will be at approximately twenty weeks. It may be possible for the doctor to determine the sex of your baby, however, that is not the purpose of the ultrasound.

Thanks, and if you have any questions, please ☎ call our office.
